

Adarsh Singh

Noida, Uttar Pradesh | adarshsinghiilm@gmail.com | [linkedin.com/in/adarsh-singh](https://www.linkedin.com/in/adarsh-singh)

Summary

Backend-focused Full-Stack Engineer with 3+ years of experience building scalable, high-performance APIs for payment systems. Strong expertise in Node.js, PHP, MySQL, and Redis, with a focus on system design, performance optimization, and reliable transaction processing. Proven experience in integrating 50+ payment gateways, implementing secure authentication (JWT/OAuth), and designing low-latency backend systems.

Skills

Languages: JavaScript (Node.js), PHP, SQL, Bash

Backend: REST APIs, Express.js, Webhooks, JWT, OAuth 2.0

Databases: MySQL (optimization), Redis (caching)

DevOps/Cloud: AWS EC2, Docker, Jenkins, Kubernetes, Linux

Tools: Git, Postman, Agile/Scrum

Experience

Senior Software Engineer

June 2022 – Present

Akonto Payment Solutions Pvt Ltd, Noida

- Integrated 50+ INR and Non-INR payment gateways, ensuring seamless transaction processing and zero-downtime deployments.
- Designed and built scalable REST APIs in Node.js and PHP handling high-volume daily transactions.
- Optimized MySQL queries and indexing strategies, improving system performance under heavy load.
- Implemented Redis caching, significantly reducing database load and improving API latency.
- Built internal Telegram bot for real-time transaction status tracking, reducing dependency on dashboards.
- Developed Slack-based logging system to streamline debugging and incident resolution.
- Managed and improved Admin and Merchant Consoles, enhancing workflow efficiency, access control, and transaction visibility.
- Implemented Docker-based deployments and automated CI/CD pipelines using Jenkins, with exposure to Kubernetes for scalable infrastructure.

Web Developer

April 2022 – August 2023

Akonto Payment Solutions Pvt Ltd

- Developed full-stack features across Node.js/PHP backend and frontend interfaces.
- Built reusable modules for payment gateway integration and credential management.

Achievements

- Integrated and maintained 50+ payment gateways supporting large-scale merchant transactions.
- Improved API response time and system performance using caching and database optimizations.
- Built internal automation tools (Telegram + Slack) reducing issue resolution time.
- Owned complete lifecycle of payment integrations from sandbox to production.

Education

B.Tech in Computer Science

2019 – 2023

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Greater Noida
